

### **ASD Subsidy Application for Student Project**

ASD students can apply for a subsidy for projects if the following conditions are met:

1. The project needs to be relevant for the ASD programme.
2. An ASD faculty mentors the project.
3. Student will not be receiving funding or subsidy from other sources.

Please note that subsidies are capped at S\$100 per student per project. Students can apply up to two times per financial year. For certain expenses such as 3D-printing, ASD would subsidize up to 50% of the cost. If more than 1 student is taking part in the project, please list the names of all students involved. The amount of subsidies granted will be based on case by case basis.

The application is to be submitted 2 weeks in advance of the project/competition deadline. Students seeking financial support need to fill in the form and send it to [Ms Tan Hui Xuan](#), Deputy Manager, ASD.

Name of Student	
Student ID	
Year of Admission	
Details of the Competition/ Project (please also include the submission deadline)	
Faculty Mentor	
Estimated Cost of the Competition/Project  (Please provide breakdown. Actual invoices/receipts will be required for reimbursement)	
Have you been granted any subsidy? If Yes, when was it granted?	
Note: For subsequent reimbursement, please approach the faculty mentor to verify your claims before sending to APD.
